PROFESSIONAL SUMMARY

IT professional with a grounded background in programming, client services, and operations — now actively transitioning into software development. Currently completing a Backend Python Developer programme at Tops Technologies, working toward an NSDC-recognised certification. Brings a blend of technical ability and real-world commercial experience: from building web applications to managing high-volume client pipelines across insurance and hospitality.

CURRENT TRAINING & CERTIFICATION

★ NSDC CERTIFIED PROGRAMME

Backend Python Developer • Tops Technologies, Surat • 2026 – Present

National Skill Development Corporation — Certification awarded on completion

- Building Python backend systems: REST APIs, server-side architecture, and application logic.
- Developing proficiency in SQL, DBMS, and relational database design within a structured curriculum.
- NSDC-recognised credential on completion — aligned with national skilling benchmarks.

PROFESSIONAL EXPERIENCE

TASC Agent — Training & Skills Coach

Jun 2024 – Feb 2025

Admiral Insurance • Halifax, NS

- Designed and delivered training programmes tailored to individual learning styles, improving team capability and knowledge retention.
- Ran structured assessments and one-to-one coaching sessions to close skill gaps and drive consistent performance.
- Tracked measurable development goals and reported outcomes that fed into wider organisational improvement initiatives.

Insurance Advisor

Jan 2022 – Jun 2024

Admiral Insurance • Halifax, NS

- Managed a high volume of client interactions daily across phone, email, and live chat while maintaining high satisfaction scores.
- Matched clients to insurance products through consultative selling — consistently met and exceeded monthly revenue targets.
- Maintained full CRM records, handled renewals end-to-end, and ensured compliance with regulatory requirements.
- Promoted internally after ranking among the team's top performers for both sales output and service quality.

Office Manager Assistant

Nov 2020 – Jan 2022

Queensway Hotel • Toronto, ON

- Redesigned application processing and cross-department communication workflows, reducing turnaround times.
- Coordinated scheduling, front-desk coverage, and daily administrative tasks across a busy hospitality environment.
- Produced daily sales reports and maintained structured filing systems supporting smooth operational continuity.

TECHNICAL SKILLS

Languages

Python • C++ • Java • PHP
